Professional Summary

Full-stack developer with 2.5 years of experience in designing, developing, and deploying scalable web applications using Angular for the frontend and Java Spring Boot for the backend. Skilled in developing responsive user interfaces, robust RESTful APIs, Proficient in SQL, CI/CD pipelines, and Agile methodology. Adept at collaborating with cross-functional teams to deliver high-performance applications and drive continuous improvement.

Skills

- Frontend: Angular, HTML, CSS, TypeScript
- Backend: Java, Spring Boot, REST APIs
- Programming Languages: Java, TypeScript
- Database: MySQL
- CI/CD Tools: Git, Bitbucket, Maven, GitLab
- Testing & Automation: JUnit, Karma, Playwright, Integration Testing, Unit Testing
- Tools & IDEs: Eclipse, VS Code, Postman

Work Experience

Programmer Analyst

Cognizant Technology Solutions — Aug 2022 – Present

- Full-stack Development: Built and maintained web applications using Angular for frontend and Spring Boot for backend services.
- Frontend Enhancements: Designed responsive, interactive UIs using Angular, HTML, and CSS; worked closely with QA and design teams to improve UX.
- API Integration: Developed and integrated RESTful APIs for database operations, improving performance and scalability.
- Database Integration: Integrated backend services with databases like SQL for seamless management and operations.
- Agile Collaboration: Participated in all Agile ceremonies including stand-ups, sprint planning, and retrospectives.
- Testing & Quality Assurance:
  - Performed unit testing using JUnit and Karma to ensure frontend and backend code reliability.
  - Contributed to writing Playwright scripts for automation testing of UI components across

teams.
   - Collaborated closely with QA to ensure robust test coverage and early defect detection.
- Version Control & Code Quality: Managed code repositories using Git and Bitbucket; conducted code reviews and ensured code quality with SonarQube.
- Documentation & Communication: Prepared technical documentation and provided knowledge transfer to peers.

Education

- **B.E CSE** - K. Ramakrishnan college of Engineering (2022) - CGPA - 8.06
- **HSE** - Orchard Schools (2018) – Percentage - 85.25%
- **SSLC** – Periyar Matriculation Higher Secondary School (2016) - Percentage – 91%

Project

Escrow (SEI Investments) — Asset & Wealth Management System

- Analyzed user stories and created Low-Level Design (LLD) for backend and UI changes.
- Developed Angular components and integrated them with RESTful APIs.
- Performed JUnit testing and Angular unit testing for frontend services.
- Managed source control using Git/Bitbucket and performed code merges in collaborative sprints.
